ELECTRONIC PREFERENTIAL CERTIFICATE OF ORIGIN

DagangNet

Exporting At Your Fingertips

Presenter: Redzuan Kamis

National Single Window Provider

National Single Window – Core Services

e Manifest™

A web-based shipping community system to facilitate submission of **manifest** from the port users to the respective authorities.

e Declare™

A web-based Customs declaration service that facilitates the preparation and submission of **trade declarations** via the Internet.

e PCO™

A web-based **certificate of origin** application and approval system that **certifies the country of origin** of a particular product.

e Payment™

A web-based duty payment service that enables preparation and submission of **duty payment** to Customs.

6 Core Services

e Permit™ STA

A web-based permit application for **Strategic Trade Act 2010** (STA 2010) that enables **application and approval of pre-registration and permits** under the purview of the STA 2010.
e Permit™

A web-based import / export **permit applications** system to relevant Permit Issuing Agencies

ePCO™

Web-based system for the application and approval of Preferential Certificate of Origin

Malaysia's single gateway to international trading community

Currently serves over **10,000 manufacturers / exporters**

Servicing Malaysia's sole PCO issuing authority, **Ministry of International Trade and Industry (MITI)**

More than **40,000 PCO documents** transacted monthly

Creates a **virtual community** for **key players** in the trade supply chain - **paper-less** environment
Features

Data **reusability** across ePCO schemes	**Enhanced copy** function (Inclusive attachment)	**Customized billing** options	**Auto calculation** for raw material % in CA
Simplified user interface		**Multiple** HS Codes in 1 CO	**Improved** email notification
Customized system **access** level		**Improved** print preview and printing features	**Independent** attachment repository

DagangNet

Benefits

Increased **transparency - real-time tracking** of application status	Reduced application processing time and cost		**Reduced paper - based applications** and improves productivity
	Web-based, thus **"anywhere & anytime**	PCO repository for **authentication** – Strengthening **security** & cross-border **integrity**	24 x 7 **customer support**

What is CO

A **certificate of origin** (often abbreviated to C/O, COO or CoO) is a document used in international trade.

In a printed form or as an electronic document, it is completed by the exporter and certified by an recognized issuing body, attesting that the goods in a particular export shipment have been produced, manufactured or processed in a particular country.

Type of CO

| Non-Preferential	Preferential
The CO is intended solely to prove the origin of goods in order to satisfy customs or trade requirements such as supporting letter of credit. These CO see that goods do not benefit from any preferential treatment and do not emanate from a particular bilateral or multilateral FTA. Chambers that are authorized to issue certificates of origin are most frequently authorized to issue non-preferential certificates of origin.	A preferential CO is a document attesting that goods in a particular shipment are of a certain origin under the definitions of a particular bilateral or multilateral free trade agreement (FTA). This certificate is required by a country's customs authority in deciding whether the imports should benefit from preferential treatment in accordance with special trading areas or customs unions such as the European Union, ASEAN or the North American Free Trade Agreement (NAFTA) or before anti-dumping taxes are enforced.

DagangNet

Guidelines

FOR EXPORTERS

1. Check the **ASEAN Harmonised Tariff Nomenclature (AHTN)** OR **HS codes** of your products.
2. Check for tariff reduction/elimination rate through **MITI Tariff Calculator**.
3. If your products are eligible, apply for product cost analysis through **DagangNet.**
   - Further information (guidelines to calculate regional value content) is also provided through **MITI Portal > Preferential Certificate of Origin > Overview**
4. Apply for **Preferential Certificate of Origin (PCO).**
5. Your importers and buyers will be able to enjoy the tariff elimination/reduction with PCO validated at importing country's customs point.

FOR IMPORTERS/BUYERS

1. Check the HS Code of your imported products.
2. Check for tariff reduction/elimination rate through **our FTA pages or Royal Malaysian Customs Department**
3. If your products are eligible, request your exporter or supplier to obtain **Preferential Certificate of Origin (PCO)**from their issuing authorities.
4. Enjoy the elimination/reduction of import duties by producing the **PCO** at any Malaysian Customs points.
